A Little Story with a Large Moral

—One Man who Knew his Own Business.

"No, my dear," said the venerable proprietor of a country store to a timid little girl whose head scarcely came up to the level of the counter, "No, my dear, we haven't any red flannel, but we have some dinky New Orleans molasses." Smiling, he hinted that she didn't think that would suit her purpose quite so well, the child went her way in search of the article she wanted.

"Have you," inquired a CAPTAIN of the regulars, asked a gentleman of a certain age, and a hundred and sixty years old, "I am troubled just now with a touch of my old friend, the lumbago, and the Benson Plaster seems to go to the spot almost as soon as it touches the skin."

"Not at present," replied the druggist generally, "but we have lots of plasters just as good. There is Allen's, the Cap-sicum, and others - won't one of them do as well?"

"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a busy man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that some time ago, for another disease, of which the Captain has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, everyone of them; the nearest at hand to the proprietors of some of them being this: That they make plasters with similar sounding names to deceive the unwary into believing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, AND MALARIA.

From these sources arise three-fourths of the blood diseases. The symptoms indicate their existence: Loss of Appetite, Bowels constipated, Sick Headache, Fatigue after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Sleepless nights, or having neglected some duty, Dizziness, Flitting at the Heart, Dots before the eyes, highly colored urine, COUGHS, BRONCHITIS, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine, TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three excrements of the system, producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect ANTIDOTE TO MALARIA.

DO THE DEAD RETURN?

The \$30,000. willed by the late Mr. Seybert for the scientific investigation of spiritualism, promises to be well spent. There is a need of something of the sort, for the general public is not in position to make a proper examination of any new forces which may be discovered, and many frauds are going about the country, deceiving people, while thousands deceive themselves. That there is a scientific explanation of mesmerism, spiritism, and the other phenomena of which weak-minded persons or frauds are trying to make a religion, has been amply proven by German professors, but the result has not been given general circulation. The *Philadelphia Press* says: The Commission appointed from the Faculty by the Trustees of the University of Pennsylvania to investigate it, will enter upon the inquiry in a sober and conservative manner, and with a strong hope of reaching conclusions of scientific value. The Chairman of the Commission is Dr. William Pepper, Provost of the University, and the other members are George A. Koenig, Assistant Professor of Chemistry; the Rev. R. E. Thompson, Professor of Social Science; Dr. J. Leidy, Professor of Anatomy, and the Rev. George W. Fullerton. The branches of the investigation have been assigned with a view to the experience of the different members. Thus Dr. Pepper will look after the physiological and medical phases of the problem, and will devote his attention to attacking spiritualism from these points of view. Professors Leidy and Koenig will combat the physical aspects, so far as they relate to natural philosophy, while the Rev. Mr. Fullerton and the Rev. Professor Thompson will view the subject from a purely intellectual and metaphysical basis. They will be, in other words, the arguers of the Commission, and will attack the subject with theories. The sum of \$100 is now available for the purposes of the investigation.

DeLesseps Worried—Militars Resume Work.

LONDON, July 16.

DeLesseps informed a Paris correspondent of the *Telegraph* that in the event of the rejection of his agreement with the British Government, regarding a parallel Suez canal, which he thought probable, he would appeal to the opinion of the whole world, and would ask for the support of the French Government in resisting the British demands.

The iron men at Wolverhampton, Staffordshire, agreed to resume work at the reduced wages, against which they struck.

Trying to Get Into Trouble.

LONDON, July 16.

Donald, Currie & Co.'s steamer *Taymouth Castle* was boarded at Tarnmouth June 20th by the French who had taken Tarnmouth. The passengers were forbidden to go ashore, and the cargo allowed to be landed only on the payment of duty. A sentry was placed on board the steamer, and the cargo and passengers then taken to Mauritius.

The President will go to the Yellowstone—The Whole Administration Away From Washington.

WASHINGTON, July 16.

Although there are very contradictory reports as to the President's purposes, there is no doubt that he will make a visit to the Yellowstone. He is reported as having said to a friend that he had abandoned his Newport trip and his sea-bass fishing for this year, and intended to have a good time in the Yellowstone country. I have, said the President, "Had enough of what is called society-in-Washington. I want to get a hundred miles away from the nearest politician, where I can take a rest in my own way, and be relieved from the social and political pressure that is so hard to avoid; and, then, I have never seen the section of country we are going to, nor do I know anything of the people who are the pioneers of civilization, and who keep on its outermost wave. I will have an opportunity too to practically study the Indian question, which I have wished to do ever since I have been in office. General Sheridan has selected the best guides and scouts he can find to go with us on the trip, and we will see parts of country which has hitherto been almost unknown to white men. As to the spice of danger there may be, that only adds to the interest of the journey. I shall rough it just as the rest do—live and keep in the open air, wear out my old hunting suit, and, for the first time in my life, become a savage. Such a trip will be worth more to me in instructions and health than 20 seasons in Newport or Saratoga would be." Attorney General Brewster expects to spend the rest of July and August at Newport. Secretary Frothingham will spend August at Newport; Secretary Lincoln will spend August in the Yellowstone country with the President; Secretary Folger intends to be at his home in New York; Postmaster-General Gresham will be absent from Washington in August. Secretary Teller has planned to spend August in Colorado. Mr. Chandler's intention is not known. He may not then be a Cabinet officer, but there is every prospect that the entire administration will be absent from Washington during August, and the Government will be run by assistants and secretaries. The anxiety of the President at being absent so long a time from telegraphic communication has been relieved by an arrangement which will furnish a daily line with couriers from wherever the Presidential party goes, to the nearest telegraph station; so that the President will be in daily communication with the executive office as well as he could be on a fishing excursion.

More Slugging Yesterday.

BUFFALO, July 16.

There was a hotly contested glove fight yesterday morning at Navy Island, in the Niagara river, between William Baker and Mervin Thompson of Rochester. Edward Seward, champion of Cleveland, and John W. Whitney of Buffalo seconded Baker, and Dennis Gallagher of this city was Thompson's second, and Dean Wilson referee. Thompson had a little the best of the fight, up to the third round, but from that time to the sixth round Baker forced the fight, and, in the latter round, knocked Thompson senseless. Time was called, but Thompson was still unconscious. He was at length revived sufficiently to again toe the scratch and be again "knocked out," when Baker was declared the victor.

Tom Thumb Dead.

MIDDLEBURY, July 16.

At the age of 14 he entered the service of P. T. Barnum, and ever since then has been before the public. He leaves a widow who has been on the stage with him since their marriage in 1863.

Weather Prophets Studying the Sun.

ROCHESTER, N. Y., July 16.

To the five groups of sun spots which have exhibited intense action the past week, two more have just been added by the sun's rotation. The sun storm which is just coming into view covers a great area, showing very rapid changes, and violent thunder storms and tornadoes may be expected this week in the northern States and Canada.

The Telegraphers' Strike.

CHICAGO, July 16.

Right upon the heels of the threatened upheaval among telegraph operators comes a move on the part of the telephone, climbers, repairers and instrument men to quit work unless certain demands for reform, made by them to-day are acceded to by the officers of the Chicago Telephone Company. The repairers are a branch of the Brotherhood of Telegraphers, and at 9 o'clock to-day a committee of

three of their number presented a bill of grievances to their employers, and gave them 48 hours to decide whether they demand that 10 hours shall be a day's work; that double rates shall be paid for night and Sunday work, and that over time shall be reckoned at 25 working days to the month. An increase of twenty per cent. in their pay is also demanded. They demand two pay days each month. The men heretofore have been paid \$2 per day, and then only once a month. They claim that suits, for which \$25.50 is annually deducted from each man's pay, are worthless, and could be purchased by them, at their own tailors, for \$9 or \$10. Should the company decide not to grant the demands of the men, the latter will every one of them stop work to-morrow morning at 9 o'clock. Officials of the Western Union Telegraph Company in this city to-day received an order from General Eckert, general manager of the company, modifying a previous order issued to which operators took exception, so as to meet the demands of the men and removing all grounds for a strike. The position of the telegraph operators remains unchanged. A. J. Morris, the presiding Chicago officer of the Brotherhood, said to-day: "I am not at liberty to say when our bill of grievances will be presented to the company. I know when it will be, but my position as an officer of the Brotherhood forbids my giving information. Everything is done as secretly as possible. The men are all awaiting orders and any action that is taken will be taken suddenly, without any previous announcement of the intention of the Executive Committee."

Kearney Fired Again.

NEW YORK, July 16.

The announcement that Dennis Kearney would be present yesterday afternoon at the meeting of the Central Labor Union, drew a larger number than usual. Before the meeting Kearney harangued a crowd from the steps, until the proprietor of the hotel ordered him to stop. When his name was announced within the hall, a motion was made to give him the privilege of the floor, and an uproar of confusion began. "What labor organization does he represent?" "Where did he get the money to come here?" was called out. His friends yelled, "Who is the father of the Chinese Act?" At length the motion was lost 38 to 12, and Kearney strode out denouncing the members of the labor unions as blatherskites, dirty loafers, etc. Some of Kearney's admirers hired unions and advocated high freights, etc.

A Wife Murderer.

TRIO, N. Y., July 16.

Levi McConey Chester, living near Port Henry, shot and killed his wife yesterday afternoon, and wounded his mother-in-law. McConey has fled. The husband and wife were not living together. She went to the house for clothing, when he said if she took her clothes he would shoot her.

The rooms were profusely and elegantly decorated with the choicest flowers, and the collation was sumptuous. The following friends of the departed were noticed as being present: Surveyor-General C. C. Powning, M. C. Lake, W. F. Everett, S. J. Hodgkinson, H. P. Kraus, Mr. Miles, George Hunphreys, A. J. Clark, J. F. Gibbs, F. Donnelly, W. D. Phillips, W. SOLE PROPRIETOR
OF THE UNITED STATES.

320, J STREET, SACRAMENTO.
IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a first long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a smell, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

rigated, producing 10 tons per
Acre. 28,000 acres under

grain farm to be included
in the sale.
The Whole Ranch comprising One
Hundred and Six Thousand
and Acres.
CONTROLLING TWO HUNDRED AND
FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR
as it is sometimes known, "The Iron
Point Ranch," is a large ranch, com-
prising one hundred and six thousand
acres of land, is now offered for sale upon
terms which represent a liberal conces-
sion to the purchaser, and offers high in-
ducements in the way of a safe, perma-
nent and profitable investment.
With this ranch will be sold four thousand
and head of stock cattle, now in splendid
condition, embracing thoroughbred Dur-
ham bulls, purchased at a cost of six hun-
dred dollars each. The entire herd is
composed of grades produced by crossing
the best American cows with the very
best thoroughbred Durham bulls ever
imported to this country. There are no
inferior animals; no Spanish cattle or
crosses from Spanish cattle. These
ranches embrace six thousand
acres of meadow land, which will pro-
duce about five thousand tons of hay per
annum. There are two hundred and
forty acres of alfalfa under irrigation,
capable of producing twelve hundred and
fifty tons of hay per annum. Twenty-
eight thousand acres of this ranch is now
under fence, redwood post and rail, sixteen
feet apart, with four barbed wire, nearly
new. Buildings attached to the ranch
consist of one good story brick house,
with four rooms, a stone coker, and
stone dairy house, well built. Home
farms for by one hundred and sixty
acres of alfalfa, and a splendid
creek of living water running through the
ranch, also, an excellent well of water
with two or three springs. Inside the in-
closure there are two springs from which
issue about twenty-five hundred inches of
water, sufficient to irrigate twenty-five
hundred acres of land which lie below
them, and which may be subjected to ir-
rigation at but little cost. Included in the
sale there are two thousand acres of fine
agricultural and meadow land, about
fifty miles from the ranch, and which
upon which there are one hundred and
twenty acres in alfalfa finely growing.
This is a fine grain ranch, capable of pro-
ducing fifty to fifty bushels of barley per
acre per annum. There is a good orchard
in bearing, and a live stream of water af-
forded abundance of trout. About one
hundred acres of this small ranch is un-
der fence. The vendors of these ranches
own and control the water rights indi-
vidually to the use of two hundred and
fifty thousand acres of land for grazing.
The sufficient water rights for twenty-
four thousand acres in the lower ranch,
and one thousand in the upper, making a
total of twenty-five thousand acres.
The sale will include eighty-four head
of good American horses, fifty of which
are large and powerful, the remainder
being saddle horses, well broken for
herding cattle and well broken work
horses; also, there will be included in
the sale grain headers, eight mowing
machines, harrows and all farming im-
plements necessary to run this ranch.
Six years ago this ranch was sold to
the owner of this ranch selling twelve
thousand head. After a rest of six years
the ranch was repurchased and is now
sold to the best of the best by the best
of the country and Nevada. They have in-
creased to their present numbers very
rapidly. Eight hundred calves were pro-
duced in 1893, and estimating upon the
basis of the past experience of increase
of the ranch, the ranch is capable of sup-
plying, without being overstocked, twenty-
four thousand head, and the present
herd may be increased to that number
without seeking other range than that
now proposed to be sold.
